

PRODUCT DESCRIPTION

Akona® Congelz™ Waste Water Hardener is the perfect method to dispose of unwanted rinse water from any cement or concrete project. Congelz patented technology is great for mortars, stuccos, grouts, patching products, and other similar materials. Using Congelz solves the issues caused by cementitious waste disposal—no more clogged drains or dumping of product on jobsites. Simply add the product to your rinse water, allow to harden, and toss the works in the trash!

WHEN/WHERE TO USE

Treats rinse water from:

- Interior or exterior projects
- Mortar mixes
- Cement mixes
- Stucco and grout
- Patches
- Underlayments

ADVANTAGES

- Patented technology
- Environmentally friendly
- Protects soil and ground water
- Prevents improper disposal (drains, etc)
- Quick drying
- Easy disposal
- Passes ASTM 9095
- Safe and legal for landfill disposal

AVAILABLE SIZE

- 3 lb. (1.36 kg) re-sealable zip bag (BOM #107069)

APPROXIMATE COVERAGE

3 lb. package treats up to 12 gallons of liquid waste.

APPLICATION: TOOLS & RESIDUE

Place a plastic trash bag into a bucket or pail. Clean the tools over the bag and into the bucket to collect all the rinse water. If cleaning a small container with waste still in it, place some water into the container and rinse with a brush or sponge. Dump all the rinse water into the bucket or pail with the liner bag. Add 1 lb. (0.45 kg) of Congelz for every 4 gal. (15 L) of rinse water. Stir it gently with a stick and allow the waste to gel. Once the material has gelled, tie or fasten the bag with a twist tie before placing the bag in the trash.

APPLICATION: MIXING EQUIPMENT & TUBS

Place a plastic trash bag into a bucket or pail. Add the necessary amount of water to thoroughly clean the mixer. Turn mixer on to start cleaning process. Turn mixer off and use a long-handled brush to scrape any remaining residue from the sides of the mixer. Dump the rinse water into the pail or bucket with a liner bag. Add 1 lb. (0.45 kg) of Congelz for every 4 gal. (15 L) pail of rinse water. Stir it gently with a stick and allow the waste to gel. Once the material has gelled, tie or fasten the bag with a twist tie before placing the bag in the trash.

CLEAN UP

Excess product can be cleaned with water before product has dried.

Proper application and installation of all AKONA products are the responsibility of the end user.
