PATENT PENDING

Nurserymen's Preferred Landscape Loc® Mulch & Rock Bond is a specially formulated locking compound designed to stabilize mulch, rock, gravel, sand, and other ground cover.

Landscape Loc Mulch & Rock Bond prevents movement caused by rain, wind, wildlife, leaf blowers, mowers, pets, edgers, and other sources while allowing the substrate to drain and breathe. Landscape Loc Mulch & Rock Bond also protects, sustains, and enhances the natural look of your mulch. Lower your maintenance time and expenses. Excellent for areas around pools or ponds to prevent mulch from becoming pool or pond debris.

DIRECTIONS FOR USE:

Preparation: Place new mulch or arrange existing mulch to desired location and thickness. Apply when temperatures are above 50°F and when no wind or rain is expected within 24 hours. (Bond time will be longer with colder temperatures and shorter with higher temperatures.)

Application:

- **Shake well before use**
- Hold sprayer 1-2' away from surface
- Spray light or heavy for desired bond
- Product goes on white and dries clear
- Allow 24-48 hours to dry completely
- Allow to dry before walking on area
- Apply a second coat when necessary
- Reapply annually for best results
- If settling occurs in container, shake well to remix

Clean Up: Excess product can be cleaned with water before product has dried. Use soap and water to clean dried product.

Coverage: One gallon will cover up to 1,500 sq. ft. with light use or up to 750 sq. ft. with heavy-duty use. (Coverage varies depending on weight of material & desired hold.)

Available Sizes:

- 1 Gallon Bottles (3.78 Liters)
- 5 Gallon Pails (18.9 Liters)
