### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

**Personal precautions** Use proper respiratory and personal protective equipment. MSHA / NIOSH or OSHA / NIOSH approved respirator recommended. Spilled materials may cause slippery conditions when wet. Care should be exercised when walking on spills on floors or concrete pads.

#### Methods and material for containment and cleaning up

**Methods for cleaning up** Vacuum, pump or scoop spilled material into containers for reclaiming or disposal. Do not discharge into drains, watercourses or onto the ground.

### 7. Handling and storage

#### Precautions for safe handling

**Usage precautions** Avoid handling which leads to dust formation. Observe occupational exposure limits and minimise the risk of inhalation of dust.

#### Conditions for safe storage, including any incompatibilities

**Storage precautions** Store in a cool and well-ventilated place. Store away from acids.

### 8. Exposure Controls/personal protection
