## **SPEC MIX Environmental Product Profile**

## **RECYCLED CONTENT**

SPEC MIX<sup>®</sup> mortar, grout, stucco, concrete and shotcrete products manufactured by TCC Materials Rapid City typically contain pre-consumer recycled content such as fly ash, slag, silica fume or other supplementary cementitious materials (SCMs). Percentages of recycled content for each SPEC MIX product are given below per LEED Requirements and by weight.

		RECYCLED CONTENT		
Product Category	Product	Pre-Consumer by Weight	Pre-Consumer Per LEED	Post-Consumer by Weight
Stucco	Fiber Base Coat Stucco	0%	0%	0%
	Scratch and Brown Stucco	0%	0%	0%
	Finish Coat Stucco	0%	0%	0%
Mortar	Portland & Lime Mortar	0%	0%	0%
	Mortar Cement Mortar	0%	0%	0%
	Colored Mortar	0%	0%	0%
	Dry Pack Mortar	2%	8%	0%
Grout	Fine Core Fill Grout	7%	21%	0%
	Coarse Core Fill Grout	6%	19%	0%
	Self Consolitated Grout	10%	27%	0%
Shotcrete	SPECSHOT Shotcrete	6%	15%	0%
	SPECPATCH Schotcrete	5%	11%	0%
Block	Normal Weight	1%	2%	0%
	Light Weight	3%	1%	0%
	Versa-lok	2%	2%	0%

## **REGIONAL MATERIALS**

TCC Materials extracts, process and package its cementitious and aggregate raw materials locally, if not regionally. Our objective when producing SPEC MIX products is to preserve the environment and the regional economy, while reducing fuel consumption and air pollution caused by transporting building materials long distances. Below are tables listing our SPEC MIX manufacturing location and extraction points.

Manufacturing Location State, City Website Address	Component Category	Extraction Points		
		Extraction City, State	Zip Code	Distance from Plant (Miles)
TCC Materials Rapid City 3151 Lien Street Rapid City, SD 57702 1-651-688-9116 www.tccmaterials.com	3/8" minus aggregate	RAPID CITY, SD	57702	5
	Concrete sand	ORAL, SD	57766	62
	Masons sand	ORAL, SD	57766	62
	Silica Sand	OTTAWA, MN	56058	514
	Cement	RAPID CITY, SD	57702	5
	Lime	EDEN, WI	53019	806
	Fly Ash	WHEATLAND, WY	82201	228
	Pigment	ST. PAUL, MN	55117	613

## **GREEN CONSTRUCTION SITES**

In addition to reducing groundwater pollution, TCC Materials offers SPEC MIX material delivery systems (silos) with its bulk bags of product to help reduce waste production through efficient material delivery; thus reducing overall waste while maximizing the use of raw materials and labor. The bulk bags and pallets used with the SPEC MIX silo systems can be recycled for use on other projects, which eliminates the disposal of cementitious paper bags in landfills. For every recyclable SPEC MIX bulk bag of premixed product distributed to a project site, an estimated 14 paper bags will never produced nor disposed in landfills.
