

GROUTING CONCRETE MASONRY ASSEMBLIES

CEU CREDITS: 1 LU | HSW

This presentation addresses the requirements and procedures of grouting concrete masonry wall systems per the I-Codes and The Masonry Society Standards TMS 402 and 602. It includes material, inspection, testing, and placement requirements.

Objectives:

- ASTM and Code requirements for masonry grout materials.
- The difference between self-consolidating grout and conventional grout per code.
- The inspection and testing requirements for grout for concrete masonry as required by the building code
- Placement requirements for grout for concrete masonry per code.

NCMA-204
