TCC Materials® acquisition of Borgert Products, Inc.

TCC Materials® is pleased to announce that it has acquired the manufacturing facilities of Borgert Products, Inc. located in St. Joseph, MN and will be operating as **Borgert Products LLC**. The two plants produce concrete pavers, tumbled pavers, permeable pavers, slabs, wall units, step units, pillars, wall caps, fireplaces, ovens, and fire rings. All products are available in a multitude of colors and textures. Established in 1923, Borgert was a third generation, family-run business under the leadership of Sue Borgert.

“Borgert Products has a strong history of producing quality products for the industry. The success of Borgert allows us to enhance and grow our hardscapes product line” stated Mark Setterstrom, Borgert Vice President & General Manager. “We look forward to the opportunities for integrating our current portfolio of products in conjunction with existing Borgert offerings as we look toward the future.”

“I am pleased to welcome Borgert Products into our TCC Group and personally thank Sue Borgert for her stewardship of the business over the years” stated Brian DiGrado, Senior Vice President & General Manager of TCC Materials Companies. “The Borgert culture compliments our strong devotion to service, understanding customer needs, technical support, and complete quality assurance.”

TCC Materials® Companies include TCC Materials, Robert Concrete Products, Bluestone Products, Amcon Concrete Products, Borgert Products and Nova Brik International. TCC Group operates 26 facilities in nine states and is headquartered in Mendota Heights, MN.
