

NORTHROCK®

Landscape Loc® Mulch & Rock Bond Concentrate

Superior Locking Compound

NorthRock Landscape Loc® Mulch & Rock Bond Concentrate is a specially formulated concentrated locking compound to stabilize mulch, rock, gravel, decomposed granite, and other ground cover. Landscape Loc Concentrate prevents movement caused by rain, wind, wildlife, mowers, leaf blowers, pets, and other sources while allowing the substrate to drain and breathe, thereby sustaining and enhancing the natural look of your mulch. Landscape Loc Concentrate has been tested and proven to be environmentally safe for ground and water. For best performance, use during the same growing season as purchased. Just shake, dilute, and use!

Use For:

Interior/external
locations

Landscape
maintenance

Edges/borders,
plant beds, trees

Mulch or
wood chips

Sand and dirt

Pebbles, light rock,
and gravel
