

LEDGESTONE SMOOTH

Willow Creek Paving Stones Ledgestone™ – the most user-friendly landscaping system for building beautiful outdoor features – is available in a **new finish, Smooth**. Create a crisp, contemporary look for your outdoor living spaces, back yard, garden or entryway with Ledgestone Smooth and Ledgestone Tapered Smooth units. Build beautiful perimeter and seat walls, columns, raised gardens and more. Create a striking accent by including a band of Ledgestone Smooth with Ledgestone Weathered units or vice-versa. Or include Ledgestone Smooth units in with popular Willow Creek Ledgestone Kits, packaged with everything you need for stunning fire and water features, bars, grill islands and more.

LedgeStone™ Smooth landscaping units

- Measures 4" tall by 8" deep x 12" wide
- Build freestanding walls, seat walls, columns and more hardscape features
- Mix/match with Weathered units

LedgeStone units are dry-stacked on a standard 6-inch leveling pad of compacted crushed-rock base material. Units are secured using concrete adhesive. Neither frost footings nor mortar are required. No special units are needed either. Solid LedgeStone units are easily modified with a masonry saw and can be configured in a variety of patterns.
