PRODUCT DESCRIPTION

NorthRock® Drainage Rock is a multi-use product for a variety of drainage & landscaping applications. Use around perforated drainage pipe and drainage areas around driveways, walkways, slabs, posts, and footing base. It can be used in planters, flower beds, and decorative features. It comes in ½ cubic foot bags for ease in placement.

Note: NorthRock® aggregates are a naturally mined product. Color consistency may vary slightly from different veins within the quarry.

Features & Benefits

- Convenient ½ cubic foot bag
- Excellent for drainage control
- Helps reduce erosion
- Excellent post and footing base
- Will not decay
- Decorative white, gray color

Uses

- Perforated pipe
- Drainage Areas
- Base for posts
- Around flower beds, trees, shrubs, and other areas
- Interior/exterior locations

Available Sizes

- ½ cu. ft. bag (**BOM #116821**)

Or multiply by:	0.33	0.5	0.66

INSTALLATION

Preparation

Follow all industry standard safety procedures when working with construction and landscape products.

Note: It is the responsibility of the installer/applicator to ensure the suitability of the product for its intended use.

Clean Up

Use soapy water to clean hands and tools immediately after use.

LIMITATIONS & PRECAUTIONS

Safety

READ THE SAFETY DATA SHEET (SDS) BEFORE USING THIS PRODUCT. SDS information is available on our website: tccmaterials.com

Cautions

Read complete cautionary information printed on product container prior to use.

This Product Data Sheet has been prepared in good faith on the basis of information available at the time of publication. It is intended to provide users with information about and guidelines for the proper use and application of the covered NorthRock® brand product(s) under normal environmental and working conditions. Because each project is different, TCC Materials cannot be responsible for the consequences of variations in such conditions, or for unforeseen conditions.
