CHERRY STONE®
TRACTION GRIT

GREAT TRACTION NEVER HURTS

Cherry Stone® Traction Grit is a fine, sharp, crushed rock which offers natural relief from the icy conditions of winter. Unlike salt, our 100% natural quartzite pebbles give you immediate traction on icy walks, steps, and driveways without hastening the deterioration of concrete surfaces. Cherry Stone grit will not dissolve or become muddy like softer limestone grits and is non-polluting and non-staining. Simply sweep up in the spring. Keep in your vehicle to use for both additional winter weight and emergency traction. Cherry Stone grit is also used for hobby crafts, aquariums, and flower pot drainage.

CHERRY STONE®
TRACTION GRIT

Features and Benefits

- Immediate results (no waiting)
- Won't dissolve or become muddy
- Will not hasten deterioration of concrete
- Hard, sharp, crushed aggregate
- Non-polluting & non-staining
